

## XLOCK Handle H30

With our future-proof Handle H30 we guarantee flexibility, high quality and uncomplicated installation. Easy access management via the XL Lock Manager app. Users can choose between 5 different access options: Smartphone, ID cards, Fingerprint, permanent and time-based PIN Codes and remote unlocking via Gateway. Especially the time-based PIN Codes that can be created and shared remotely, have proven to be a very desired tool.

Our XLOCK Gateway upgrade allows you to unlock your door while not being home and monitor all activity remotely. You can manage and control access from anywhere.

### Compatibel Systems:

Bluetooth, PIN Code, ID Cards, Biometric, Remote unlocking

### Power supply:

6 Volt Battery
