Features:

1. GS certificated load: 300kg per pc. Factory test load: 580 kg per pc
2. All legs are independently adjustable, from 61.8 cm to 82 cm, allowing you to use the sawhorse on uneven surfaces if necessary
3. Non-marring feet help to stabilize the sawhorse and will help protect your finished flooring
4. Top surface is covered by non-skid material, assuring your work items stay in place
5. Deep 45 x 90mm support arms assist in creating a flush table top when paired, giving you a truly balanced and adequately supported workspace
6. Built-in handle is made of high-impact plastic, making it easy to move the sawhorse around your job site
7. Folding legs make storage and transportation a simple task
8. Constructed from sturdy, high-grade steel for increased strength and durability with rolled edges for a safe working environment
