

E-concert

- 2 years guarantee
- Custom fit
- Soft TPE
- Noise reducing filters
- Includes Carry Case and User Manual
- Stay protected while enjoying music and conversations

E-concert hearing protection plugs reduces harmful sounds during your music experience and at the same time gives the concertgoer or musician the opportunity to have the full music experience. E-concert plugs is developed with two different handles for Left and Right for when you need to place the product in the dark. E-concert is developed and manufactured for the purpose of being used during concerts or as a musician without any inconvenience and without compromising the music experience. E-concert is produced in medical approved, soft TPE via a 3D scan of the ears through earfabSCAN app. This gives you the opportunity to now order your custom-made product regardless of location.
