Gross weight:	0.01 kg

DATASHEET

HOOK REST

Support specifically designed for the attachment of the carabiners of a fall arrest lanyard when only one arm is used, or when the equipment as a whole is not used.

Main features:

- designed to be installed inside the specific horizontal strap located on the shoulder straps of the following harnesses: GRYPHON, XARRIER TOP Y, WORK

TEC 140 and WORK TEC;

- easy and fast to install without using any tool;

- ideal to efficiently place the connectors of a fall arrest lanyard, allowing the user to keep them at hand while reducing the hindrance of the lanyard while not in use;

- compatible even with large connectors, which remain in position without rotating;

- designed to release the connector if it undergoes a load greater than a few kilograms, in order not to interfere with the opening of the energy absorber in the case of a fall;

- • release force suitable for each connector model used, both in case of fall and of accidental snagging;

- registered design.

Attention! Not to be used as a PPE and it must not be used for hanging equipment or tools.
