# DOWEL JIG

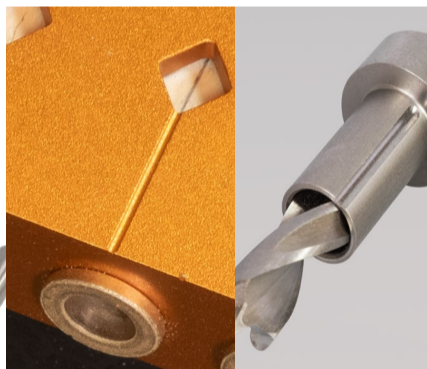

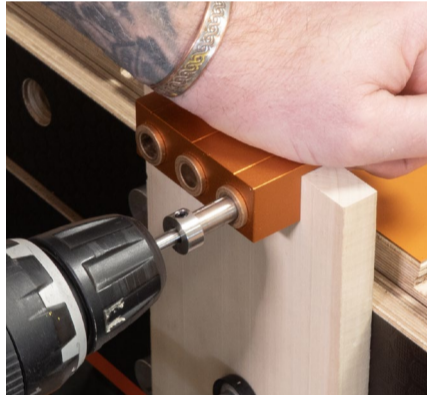

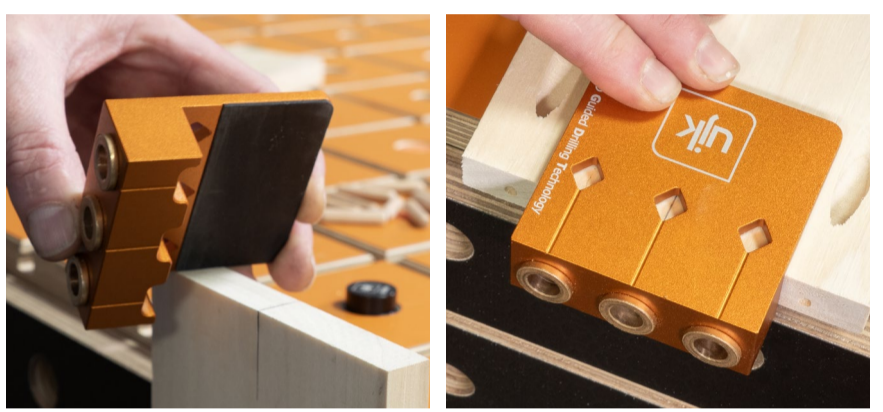

**Perfect Alignment. Precision Joints.**

**The UJK Dowel Jig delivers fast, repeatable accuracy for clean, perfectly aligned dowel joints.**

Easy to use, compact and manufactured from anodised aluminium with bronze Oilite bushes, it's built for every woodworker for long-term precision.

An ideal companion to the UJK Pocket Hole Jig to guide accurate alignment, or equally effective as a standalone solution

- Diamond viewing window for precise positioning
- Rubber grip pad helps hold the jig in place
- Supplied with 6mm stainless steel lip and spur drill bit (8mm bit sold separately)
- Drill bit guides chip waste through the clearance channels
- Drill guide wiper slot keeps bushes clear
- Supplied with pack of 50 UJK Fluted Dowels - 6mm x 25mm
- UJK Fluted Dowels available
