

Combination Wrenches — Open / 12-Point Ring

22 variants | Size 6–41 mm | Pack. unit: 1 pcs

PRODUCT DESCRIPTION

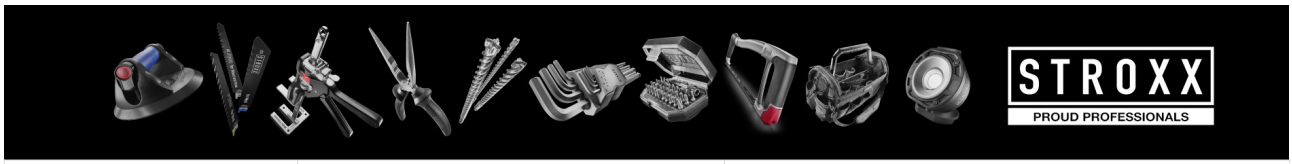

STROXX combination wrenches with an open jaw at one end and a 12-point ring at the other, covering a 6–41 mm metric range. The 12-point star ring engages bolt heads at 30° intervals for high-torque grip and easy repositioning in confined spaces, while the open end suits quick, free-running work. Forged from carbon steel and heat-treated to a balanced HRC 39–48 hardness, then satin chrome-plated for corrosion resistance and reduced glare. Permanent laser marking ensures lasting size identification.

HIGHLIGHTS

- Dual-ended design: open jaw plus 12-point ring
- 12-point star geometry for high-torque grip and tight-space access
- Precision carbon steel, HRC 39–48 balanced hardness
- Satin chrome plating — anti-corrosion and anti-glare
- Permanent laser-marked sizing, 6–41 mm range
